

NYU LANGONE DENTAL MEDICINE
Postdoctoral Residency Programs

Advanced Education in General Dentistry

Our mission: to serve, to teach, and to discover is achieved daily through our integrated academic culture devoted to excellence in patient care, education, and research.

NYU Langone Dental Medicine
Postdoctoral Residency Programs

Advanced Education in General Dentistry

This 12-month AEGD program provides comprehensive training in general dentistry as well as superior preparation for advanced specialties.

There is not another postdoctoral dental residency program in the world quite like NYU Langone Dental Medicine. We are not only the largest, by far, but provide the most unique experiences as part of a resident's journey to becoming a career 'super-generalist'. No other program will better prepare you for future success.

Win-Win

Win for dental residents

- Receive unparalleled, real-world training
- Learn from world-class faculty who are mentors and training experts in their fields
- Able to make a difference in underserved communities in a tuition free program that pays a generous stipend and fringe benefits

Win for patients

- Access to free or low-cost, quality dental care
- Treated in their own communities: in 27 US States, the US Virgin Islands, and Puerto Rico

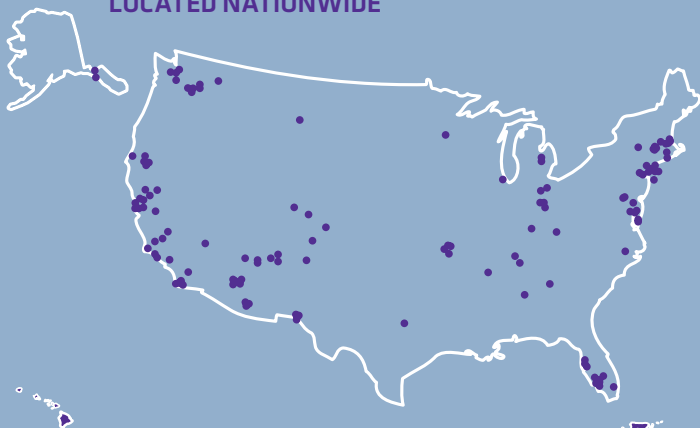

AMAZING EXPERIENCE

“In this AEGD program, we got to do everything from molar root canals to placing implants to doing crown and bridge work, bone grafts, and ridge augmentation, which is pretty amazing.”

Harlean Ahuja, DMD
AEGD Alumna, 2017
El Rio Community
Health Center

AEGD Curriculum

CLINICAL

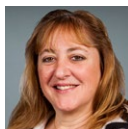

- 1 Full-time general dentistry training/practice at CODA approved clinical training sites.
- 2 Focus on multispecialty, interdisciplinary comprehensive patient case management.
- 3 Clinical requirements & milestones.
- 4 Standardized core clinical curriculum.
- 5 Residents receive clinical experience in most dentistry disciplines: preventive, restorative, endodontics, periodontics, removable and fixed prosthodontics, hard and soft tissue surgery, sedation techniques, pain and trauma management and dental public health.
- 6 Residents will provide comprehensive oral health care to many vulnerable populations including: children, adults, elderly as well as populations with intellectual and/or developmental disabilities and a variety of medically complex conditions.

DIDACTIC

- 1 Secure online lecture modules (Brightspace).
- 2 Monthly video conferences and regional day sessions.
- 3 Standardized core didactic curriculum.
- 4 Residents work at their own pace.

CLINICAL COMPETENCE

"NYU Langone's AEGD program is unique in concept and design. The clinical curriculum is focused on solidifying general dentistry skills and increasing the confidence of future practitioners."

Anna D'Emilio, DDS, MA
Vice President,
Program Director,
Advanced Education in
General Dentistry

Why Students Pursue a Postdoctoral Dental Residency Program

FINANCIAL

- Opportunity for student loan deferral.
- Receive a competitive, yearly stipend along with comprehensive fringe benefits.
- Opportunity for a pathway to practice at CHC's with NHSC corps loan forgiveness grants.
- Increased future, competitive employment potential.

RESEARCH

- Opportunities to conduct dental research or public health projects; presentations & publications.

LICENSURE

- Opportunity to use the program pathway for licensure in lieu of a clinical board examination.

ACADEMIA

- Hospital appointments.
- Faculty teaching appointments in dental schools.
- Distinction of professional status among peers and mentors.
- Required for program directors of postgraduate programs.
